- Information and Data Transfer-Exchange-Sharing co-ordination, administration and control
- Ensuring compliance with industry standards and best practices, particularly ISO 27001.
- IT and Technology Vendor Selection, Procurement, Vendor Risk Assessment and Vendor Contract Management

Why Should You Consider Working (In this Role!) With ValuEnable?

- We are a 4 year old well-funded and profitable service focused insurtech venture, solving a USD 40 Bn per year customer retention problem for insurers. We work with 8 of the top 10 private Life insurers in the country helping them solve this problem.
- We have been recognised by **IRDAI** in its first-ever Open House for Insurtech held last year. One of India's most well respected financial institute, **Zerodha,** is our lead institutional investor through it's fintech investment arm, Rainmatter Fintech Investment
- You will work with significantly senior levels at our partners' end, helping address their specific requirements.

- You will be handling interactions with multiple stakeholders such as business, technology and product teams. You can leverage the experience you already have, we promise your experience will only be enriched!

Eligibility
- 10+ years of work experience in information security with at least 5 years in a managerial position
- Experience in BFSI domain in relevant roles
- Bachelor's degree in IT or Computer Science
